

Faux Piping Border

For this binding, you will need two different fabrics. The fabric that will be the "piping" will be cut at 2" wide. The other fabric will be cut at 1 1/2" wide.

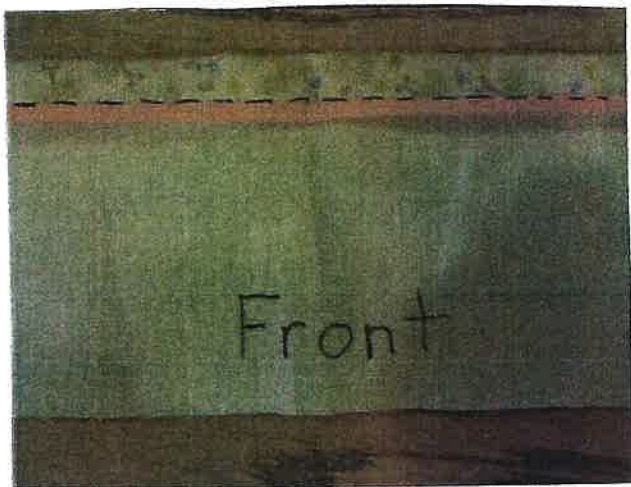

Sew the strips together lengthwise, as shown. Press toward the thinner strip.

Fold the fabric, as shown, and press. The "piping" fabric will stick out over the thinner fabric.

Sew the binding to the back of your quilt, like you normally do.

Flip the binding to the front of your quilt. Stitch in the ditch, as shown by the dotted line in the picture.

You will love the outcome
