

# 3D Pinwheel Block

This pattern shows how to make the block only.

You will need a  $3\frac{1}{2}$  x WOF (width of fabric) of two coordinating fabrics.

Cut each strip into (8)  $3\frac{1}{2}$ " squares. →

Now, take (4) of each color way and fold diagonally as shown. ←

Take the bottom right point and fold over, as seen in the photo. Press. ←

These will be arranged on the coordinating squares.

Do the same with the other fabric.

This is how it is pinned. You may want to baste it in place.

Sew blocks together.
